

CloudWheel Cloud Identification

Do you enjoy identifying clouds? We have produced a fun, cut-out cloud wheel that you can download and cut out to use for naming clouds.

You can [download the wheel](#) [1] and print this at home. The cloud description will only show next to the correct cloud when the cut out wheel is used. Otherwise the correct clouds and descriptions are opposite to each other.

If you would like to buy a far more detailed [Cloud Key](#) [2], you can also purchase this [via our shop](#). [2]

The Royal Meteorological Society is the BBC's official partner for Weather Watchers. To access additional free resources to help you engage more with Weather Watchers [click here](#). [2]
