meetings@rmets.org ^[3]

Please be aware this meeting has now been cancelled due to COVID-19. This meeting is hoped to be re-scheduled so please stay updated on our event website.

SPEAKER| Professor Carlos Garcia de Leaniz from Swansea University.

ABSTRACT| Professor Garcia de Leaniz is the brains behind a big European research project called AMBER: It is all about the fragmentation of European rivers due to human constructed barriers to the flow of water, sediments and living things (eg fish!). The AMBER project is all about

supporting actions to remove those barriers.
