Standard Chartered Weather
Photographer of the Year
Launch Event

Find photographic inspiration
at the online launch for
Standard Chartered Weather
Photographer of the Year
2024, to celebrate the
competition opening for
entries.

Join broadcast meteorologist
Laura Tobin on a guided tour
of the science behind our
incredible weather, and
improve your ability to spot
weather features.

Learn how to develop your
climate change storytelling,
with Alastair Johnstone of
Climate Visuals. Hear
practical guidance on what
makes a truly impactful
climate change photograph,
based on international social
research on what engages
audiences.

Storm chaser and tornado

researcher Paul Knightley will share his experiences on capturing extreme weather, from elusive tornadoes to lightning and hail. Learn about planning ahead and choosing your position, staying safe, and enjoy Paul's photographs and stories.
