

Data Assimilation Special Interest Group

[Register an interest](#) [1]

[Email the Data Assimilation group](#) [1]

The Data Assimilation Group meets once or twice a year to discuss specific aspects of data assimilation (eg Assimilation of Satellite Data; Use of Ensembles in Data Assimilation) and occasionally organises national meetings for all members of the Society. The group maintains an email list which is used to distribute details of our meetings and other items of interest to those working on data assimilation.

The Data Assimilation group is chaired by Peter Jan van Leeuwen Professor of Data Assimilation, Environmental Systems Science Centre, Reading University, 3 Earley Gate, Reading, RG6 6AL, UK

Further information can be obtained from the group's secretary, Dr Cristina Charlton-Perez,
